

*Possible location in Interlaken, Switzerland ... (in the Infrastructure of the bankrupt Mysterypark)*

## ***Objective and Philosophy of Dharma Ethic Party Economy Academy***

### **Target:**

The functions of central banks and the future architecture of a new, better world monetary system **must be supervised by corruption free ethical intellectuals.**

**If you cant find them – you have to create / train them.** The creation of a new education system with a new kind of institution for the advisory role of corruption free, ethical intellectuals is the only long-term solution we have! In order to combat the intellectual corruption which **has beset journalism, science, politics, economy and the world's monetary system.** See the Nobel praised book "The Glass Bead Game" by Hermann Hesse, which describes such an educational system in detail.

### **Philosophy:**

**Dharma Ethic Party Economy Academy** presents and characterizes the concept of "partial globalization". **Partial Globalization** is the worldwide dissemination of the Gandhian idea of democracy, i.e. the greatest economic decentralization and ethical evolution through creativity and responsibility. **All this hast be taught** under the supervision of a single global ethical education system that teaches us precisely this kind of decentralization. (More about the "partial globalization", see: [www.ethikparty.org](http://www.ethikparty.org))

## ***Purpose and Layout of the Academy and the study houses***

Every society and every culture, whether primitive or complex, requires a certain ethical intelligentsia in order to solve their social duties satisfactorily. Sometimes it shows itself in the form of senior intelligence (wise man / woman) and sometimes in the form of a Nobel laureate. In both cases, however, it carries regardless of complexity and sophistication the same function.

- **Outer ring of the Academy:** Contains the **study houses of spiritual cultures and wisdom**. Here we show to a wider audience the necessity of a common **World-Ethos** and a qualified to say corruption free ethical intelligentsia. **This academy is to be understood as a paradigm Institute, an institute of fundamental worldviews**. In the upper three buildings we illustrate the history of worldwide economic problems, alternatives, solutions and the benefits of a humanistic economy.

- **Core of the Academy:** This is the **actual Academy**, the training center of the corruption-free, ethically educated. Here are auditoriums, libraries, accommodations and an expo center in which the secondary principles of a Humanistic Economy and the qualities and duties of corruption free, ethically educated are taught (see definition on our ethics [www.ethikparty.org](http://www.ethikparty.org)).

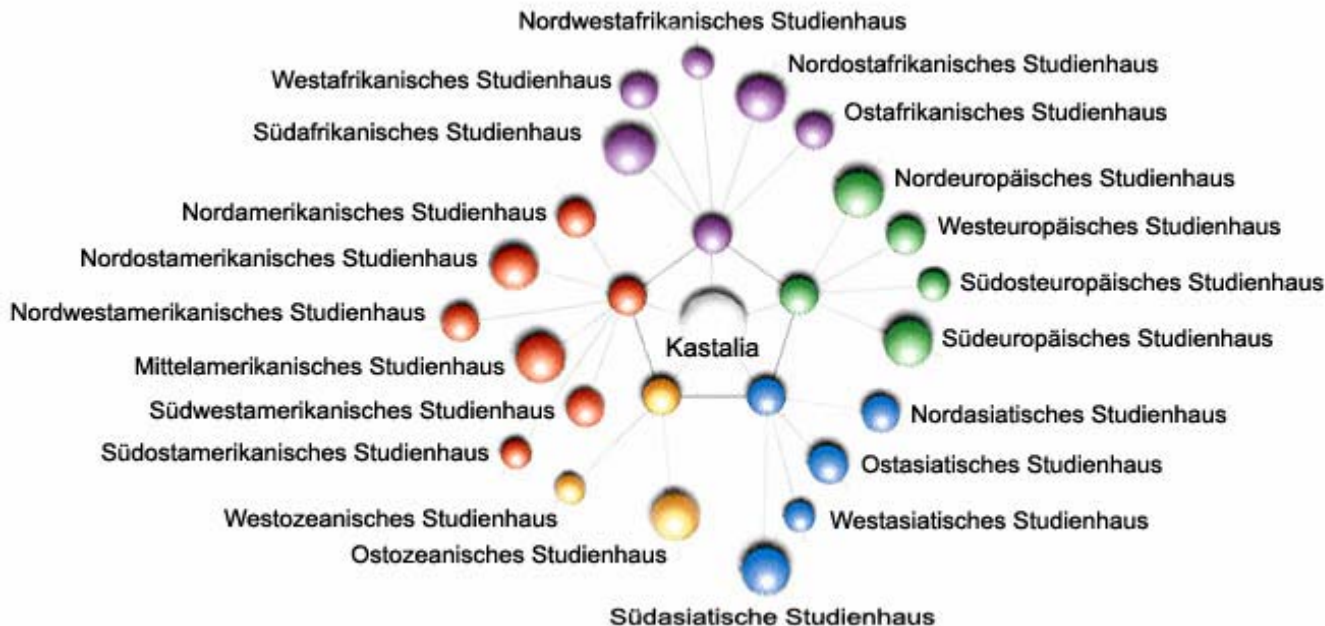

***Dharma Ethic Party Economy Academy with the study houses of spiritual wisdom and cultures***

## Infrastructure of the Dharma Ethic Party Economy Academy 1 (4)

The study houses of spiritual wisdom and cultures explore the essence of the **common Worl-Ethos**. The Nobel praised book "**The Glass Bead Game**" by Hermann Hesse (his last great work, on which he had worked before and during World War II for twelve years), he describes the rights, duties and organization of the ethical intellectuals he called them "**Castalians**" or the "**Castalian Province**"). The **Dharma Ethic Party Economy Academy** is build in accordance with these principles: "Ethical Evolution is a research assignment, and has nothing to do with a ritualised, institutionalized blind faith!"

## **Infrastructure of the Dharma Ethic Party Economy Academy 2 (4)**

**Former Mystery Park layout: 7 theme pavilions of the "Mysteries of the World"**

**MysteryCity**  
*Restaurants, Shops*

**Event & Conference Center**  
- Seminar and event space for 1,200 guests

## ***Infrastructure of the Dharma Ethic Party Economy Academy 3 (4)***

**Modified layout: 7 Study houses** which contain **spiritual wisdom of cultures and civilizations**, the essence of the common **World-Ethos**, the historical and contemporary economic problems and injustices, the economic benefits of a modern decentralized humanistic economy **without the unhealthy demand of growth, expansion and exploitation of fellow human beings, creatures, nature, etc.**

### **Entrance to the actual Academy**

To the Auditorium Maximum, the other classrooms, libraries, and research and development facilities

### **4 hotel and apartment buildings**

a fairground on the ground floor (including visitors restaurants, shops, etc.)

## **Infrastructure of the Dharma Ethic Party Economy Academy 4 (4)**

### **Modified layout: The spherical central building**

**For the Guinness Book of Records: The largest rotating globe of the world.**

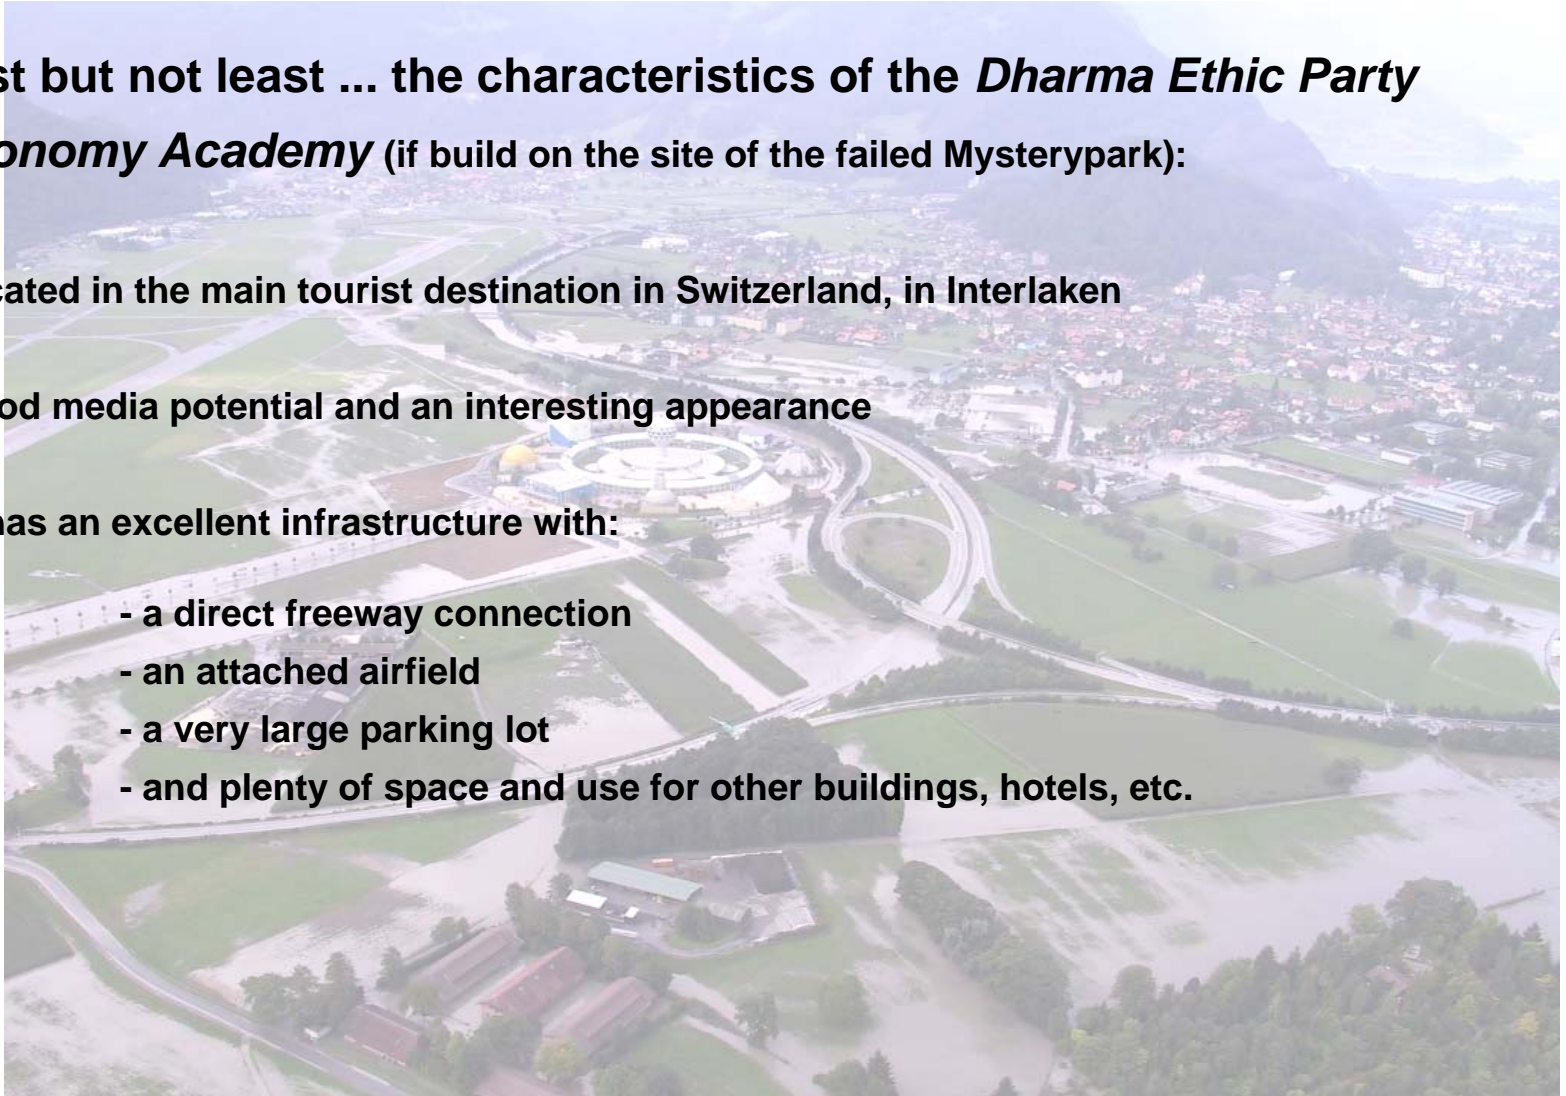

The central building sphere is covered with a **semitransparent rotating globe** to symbolize the common problems and **common World-Ethos of its inhabitants.**

Within the sphere are **research and development facilities** located, a **VIP guest area** with **presentation and meeting rooms** to receive government officials and other guests, to which the benefits of the human economy and the need for the existence of a ***Dharma Ethic Party Economy Academy*** are presented.

**Last but not least ... the characteristics of the *Dharma Ethic Party Economy Academy* (if build on the site of the failed Mysterypark):**

- located in the main tourist destination in Switzerland, in Interlaken
- good media potential and an interesting appearance
- it has an excellent infrastructure with:
  - a direct freeway connection
  - an attached airfield
  - a very large parking lot
  - and plenty of space and use for other buildings, hotels, etc.

**Thank you very much!**
